New York, NY, USA

January 5, 2015

Executive Summary

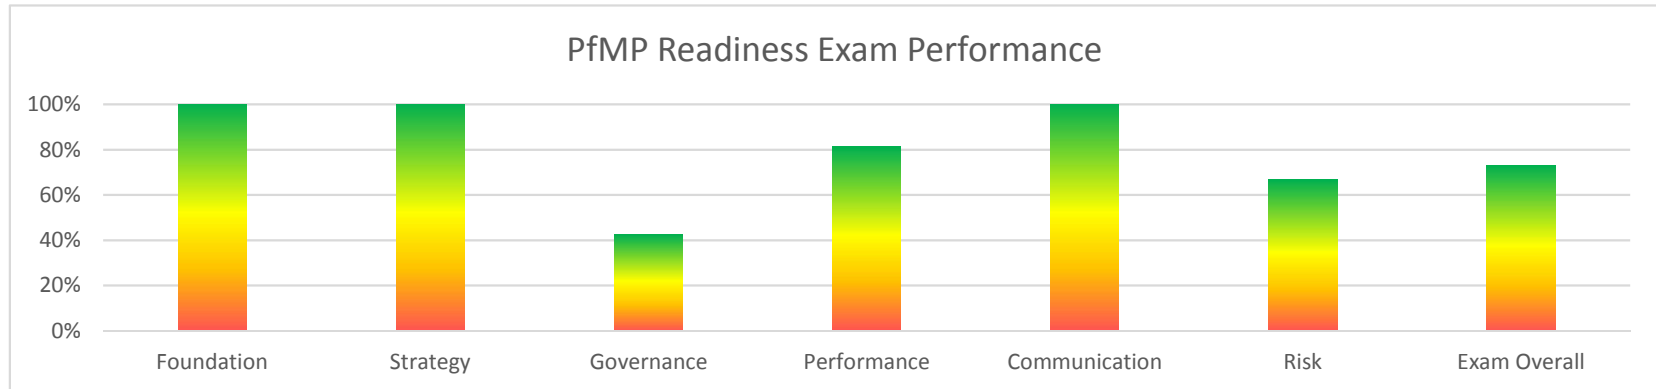

Congratulations! You qualify for the Portfolio Management Certification.

But!!! If you take the test now, our model indicates that you have a 66% probability of passing the exam, which is no where near certainty. Our recommendation is to study hard and make sure your score on the practice exam is consistently above 80%.

The overall assessment of 66% is based on three important factors:

1. Twenty questions in the assessment quiz of which you achieved 73%.
2. Portfolio management experience of which you achieved 42%.
3. PMI exam aptitude (or familiarity) of which you achieved 70%.

Performance on the Readiness Exam

Area	Score	Description
Foundation	100%	<p>While the Examination Content Outline (ECO) does not explicitly cover Foundation, we believe it is important to understand the basic knowledge of portfolio management. Otherwise, you will likely struggle throughout the entire exam.</p> <p>Excellent! You should pass the PfMP exam without much difficulty.</p>
Strategy	100%	<p>Strategic Alignment is 25% of the exam, so there are more question on this topic than any other knowledge area - except Performance which is also 25%.</p> <p>Excellent! You should pass without much difficulty.</p>

Performance on the Readiness Exam (Continued)

Area	Score	Description
Governance	42%	<p>For people who have limited portfolio management experience especially at the executive-level, we believe this knowledge area may be the most difficult. Governance is 20% of the exam, and most of the questions are experience-based.</p> <p>Failed! If you just started your study, then do not get discouraged and focus on this area. If you have completed studying, then our suggestion is to find a mentor, join a study group or bootcamp to gain access to experts who can help you.</p>
Performance	81%	<p>Performance Management is the other big area on the exam with 25% of the exam questions. Please make sure you know the ITTO - inputs/tools/techniques/outputs for this knowledge area.</p> <p>Good, but more study will be valuable to raise your competency here. Practice more to achieve a consistent score of 80% or higher.</p>
Communication	100%	<p>Communication Management is 15% of the exam. While similar in concept to project and program management, portfolio management communication will have a broader scope and implications to your organization.</p> <p>Excellent! You should pass without much difficulty.</p>

Performance on the Readiness Exam (Continued)

Area	Score	Description
Risk	67%	<p>Risk Management is 15% of the exam. This knowledge area can be tricky as portfolio risks can be confused with portfolio component risks. Please make sure to give yourself time on the exam to read through the questions thoroughly.</p> <p>Poor, please focus more on this area and practice! Practice more to achieve a consistent score of 80% or higher.</p>
Exam Overall	73%	Fair, you are on the way. Study more and raise it to 80% and higher!

Portfolio Management Experience

Qualify for Portfolio Management?:	Yes
------------------------------------	-----

Education Level:	Bachelor
------------------	----------

Years of Portfolio Management Experience:	Sufficient
---	------------

General Business Experience:	Sufficient
------------------------------	------------

Portfolio Management Experience Score:	42%
--	-----

Congratulations! You qualify to take the PfMP Exam.

The Portfolio Management Experience Score reflects your overall management experience with portfolio mangement.

Your portfolio experience is mainly tactical and may not be sufficient to pass the exam. You should give yourself plenty of time to study. Focus not only on the memorization but also review PMI's recommended list of books.

PMI® Exam Aptitude

This section is perhaps the most subjective. PMI examinations are intense and can be stressful. With this exam, prior experience with PMI exams or other standardized tests will be helpful.

Certification Name	Scoring
CAPM®	1.0
PMP®	2.0
PMI-ACP®	1.0
PMI-PBA®	0.5
PMI-RMP®	0.0
PMI-SP®	0.0
PgMP®	0.8
OPM3®	0.0
ITIL	0.5
Other(s)	1.0
PMI Exam Aptitude Score:	70%

PfMP Application:

Yes

The PMI Exam Aptitude Score evaluates your familiarity with standard tests, especially PMI exams.

It appears that you have good experience with high pressure, standardized tests. It is important to develop a test taking strategy and practice!
