

INTELICAMP® Optimizing Blended Virtual Learning for Certification Seekers

The Intelicamp is designed to address the 5 key differences in how professionals learn

Here is how our Intelicamp optimizes professional

Focused

Intelicamps have one primary objective – passing the exam on the first try.

Augmenting Experience

In the real-time sessions, Intelicamps use case studies, and storytelling to highlight the important concepts, principles, and techniques required to pass the exam.

Measurable Progress

Pass our exam simulator in the Exam mode two times at 85% within seven days and take the actual exam within another seven days. Our exam simulators offer two modes: Flexible and Exam mode

Guidance by a Sherpa

Our approach saves learners valuable time by mentoring and guiding, like Sherpas, through the maze of activities to reach the final goal quickly. The time savings is huge - shaving off as much as 60% on the preparation time

Intelligent Learning

Professionals are busy with limited attention spans. Intelicamps are designed to be only four hours long and within a space of a week in between for the learners to reflect, relax, practice, and assimilate the knowledge
